**"Thanks to my faith, family and friends, believe it or not, it now almost feels like it (breast cancer) never happened. I let that experience "develop"**

**"One good thing about having cancer: As one brilliant woman in the cancer survival circle said, 'it's all about time.' The truth is, it**

**always was 'all about time,' but once you have a life-changing illness you never forget that this life is not a dress rehearsal! It is a constant reminder that life is fragile and temporary so I am living it the best way I can!"**
